SUPPLEMENTARY INFORMATION: Effective July 1, 2007, FHWA assigned, and Caltrans assumed, environmental responsibilities for this project pursuant to 23 U.S.C. 327. Notice is hereby given that the Caltrans has taken final agency actions subject to 23 U.S.C. 139(/)(1) by issuing licenses, permits, and approvals for the following highway project in the State of California.

The County of Sacramento, in cooperation with Caltrans and the City of Rancho Cordova, proposes to modify the existing Hazel Avenue/US 50 interchange, and extend and grade-separate Hazel Avenue over Folsom Boulevard and the SPTC-JPA rail corridor. Hazel Avenue will be extended south to a proposed intersection with the future Atlanta Street (a new roadway that will be constructed as part of the Easton Place development). The project limits along US 50 begin approximately 3,200 feet west of the existing Hazel Avenue overcrossing and extend 2,500 feet east of the Natoma Overhead (post miles 15.1 to 15.4). Improvements along Folsom Boulevard would extend from approximately 1,200 feet west of the Hazel Avenue intersection to 900 feet east of the intersection. The project purpose is to reduce congestion, improve traffic operations, accommodate travel demand due to planned and approved developments, and improve safety of all modes of travel, including bicycles and pedestrians. The actions by the Federal agencies, and the laws under which such actions were taken, are described in the Final Environmental Assessment (FEA)/Finding of No Significant Impact (FONSI) for the project, approved on July 2, 2020, and in other documents in Caltrans' project records.

The FEA, FONSI and other project records are available by contacting Caltrans at the addresses provided above.
